

TEAM PARKING INFORMATION

A detailed map of the area around the Siegel Center, with links for finding directions, can be found on the VCU website:

<http://www.vcu.edu/maps/acmap/stuart/stuart.htm>

PARKING LOCATIONS:

Cars/Minivans/Pick-Up Trucks will park in VCU's Bowe Street Parking Deck on the corner of Marshall and Bowe Streets. The deck is on the same side of the street and just west of the Siegel Center. Enter the deck from Bowe Street. Spectators can park either on the street or in the West Broad Street deck, 1111 W. Broad Street for a fee. Teams will receive their parking passes at pit administration in their registration packets.

Large Vans (15 passenger) should drive past the Siegel Center (1200 West Broad Street) heading west and turn right into the university's UU Parking lot. Parking Guards will assist you.

Buses should continue past the Siegel Center heading west. Turn right onto Bowe Street, right onto Marshall Street, and right again onto Harrison Street. Unload buses along curb on Harrison Street in designated area to unload students. Students can then proceed to the side entrance on Harrison Street. The empty bus should then circle the block to park on Marshall Street. (Bus monitors will be available in front of building if you have questions; but please do not unload in front. Bus monitors will also be available behind the Siegel Center to assist you with bus unloading and parking.)

UNLOADING TOOLS & HEAVY EQUIPMENT

The ramp to the loading dock is very steep. Please exercise caution when unloading and moving equipment.

Cars/Vans/Pickup Trucks (*limited to one vehicle per team*) Turn right into the UU lot, just west of the Siegel Center and follow the guard's instructions for unloading. Drop off people & equipment, but the driver must exit lot immediately to park. Exit the lot; make a left onto Marshall, and left again onto Bowe Street to park in the deck. Parking Guards will provide guidance and limit each team to only enough time to unload vehicle. Bring a dolly for easy transport, since you will have to wheel or carry your equipment down the ramp into the Siegel Center. All other team members should enter the building from the main entrance.

BUSES with tools and equipment - Follow directions above for buses. We will have a designated unloading area on Marshall Street near the loading dock with a parking greeter to guide you. Drop off **only** the people necessary to carry tools to the loading dock. Then drive the bus around to unload the team on Harrison Street. Buses can then circle the Siegel Center to park on Marshall Street.
